

CONSERVATION CHRONICLES

SHELBY SOIL & WATER CONSERVATION DISTRICT E-NEWSLETTER

SALT SMART

Shovel First: Salt should follow snow removal and only in areas needed for safety.

Less is more: More salt doesn't mean more melting. A coffee mug's worth should cover 10 sidewalk squares.

Spread Evenly: Distribute salt evenly to avoid wasteful clumps.

Sweep excess: If salt is left after melting, too much was used. Sweep it up to keep it out of our rivers and streams.

Road salt (sodium chloride) is our winter traction hero, but when it melts off the roads, it infiltrates our water systems, posing risks to aquatic life, ecosystems, and even our drinking water.

There are a number of ways to conserve WATER, and they all start with YOU!

78th Shelby SWCD Annual Banquet and Board Supervisor Election

BY AMANDA HURLEY

Shelby SWCD held its 78th annual banquet on Thursday, December 5th at St. Michael Hall in Fort Loramie. Approximately ninety attendees were present including Shelby County residents; supporters of Shelby SWCD; representatives from Ohio Department of Agriculture, United States Department of Agriculture, and many community groups; and district staff.

After Board of Supervisor voting and a buffet dinner, the keynote speaker, Mike Less, better known as “Farmhand Mike” from Arcanum, Ohio gave a presentation about his career and recent YouTube success. Mike grew up on a farm and has worked as a technician, field service representative or product specialist for several agricultural equipment companies throughout his career. In recent years he started posting videos of different agricultural practices and equipment from around the world on YouTube and other social media outlets. He reviewed the stories behind some of his most successful videos and talked about how being a recognizable YouTube personality has surprised him in many ways.

MIKE LESS GAVE KEYNOTE PRESENTATION

Next, Aaron and Sarah Heilers, were awarded the 2024 Cooperator of the Year Award. Aaron and Sarah are long time cooperators and champions of soil & water conservation. The Heilers have utilized many best management practices on their land and participated in many Shelby SWCD programs over the years.

Conservation is a state of harmony between men and land.

ALDO LEOPOLD

JASON BRUNS AND STEVE BERNING PRESENTING THE 2024 COOPERATOR OF THE YEAR AWARD TO AARON AND SARAH HEILERS.

Off the farm, Aaron has worked with numerous local producers professionally to develop nutrient management plans and further conservation efforts. Sarah and her FFA students have been a valued partner of the district by providing countless hours of assistance to district educational and outreach function. Lastly, the work and activities of Shelby SWCD was reviewed with a video.

Voting for open board supervisor positions were concluded on December 31st. Steve Berning and Leonard Albers were re-elected for 3-year terms. Their new terms will begin January 1, 2025. Other board members serving in 2025 include Michael Watercutter and Brent Clinehens. There is currently a vacant board supervisor position.

Thank you to all who attended and thank you to everyone who supported the efforts of Shelby SWCD in 2024! We look forward to a wonderful 2025!

West Ohio Agronomy Day 2025

January 6th, 2025
8:30 am - 4:30 pm
St. Michael's Hall,
33 Elm Street
Ft. Loramie

January 14th, 2025
5:00 pm - 9:00 pm

visiting, as holiday hours
and vacations may affect
our schedule.

Shelby County Extension is once again hosting Western Ohio Agronomy Day, this January! This is the opportunity for those who hold a Pesticide and/or Fertilizer Applicators License to get recertified and receive their credits for the next three years.

We have two dates are being offered this year:

- Monday, January 6th from 8:30 am-4:30 pm
- Tuesday, January 14th from 5:00 pm-9:00 pm.

On January 6th, there will be lunch provided to those who pre-register, as well as the opportunity to talk to local ag businesses and OSU professionals.

The cost to register for class:
\$45 for Commercial Credits
\$35 for Private Applicator Credits
\$15 for Fertilizer Credits
\$10 for those who do not need credits

REMINDER: Payment of \$30 needs to be sent to the Ohio Department of Agriculture in Reynoldsburg and is necessary for your license fee.

Registration deadline is January 3rd, 2025 register in the office or email Rylee Kay Puthoff at puthoff.84@osu.edu

H2Ohio producers have turned in their completed acres for 2024 fall practices. The total number of acres that have been reported are as follows:

- 2024 Cover Crops: 4,222.70 acres
- 2025 Small Grains: 1,610.9 acres
- 2025 Manure Incorporation: 1,169.0 acres

If you have not reported your 2024 fall practices to Shelby SWCD, please do so as soon as possible.

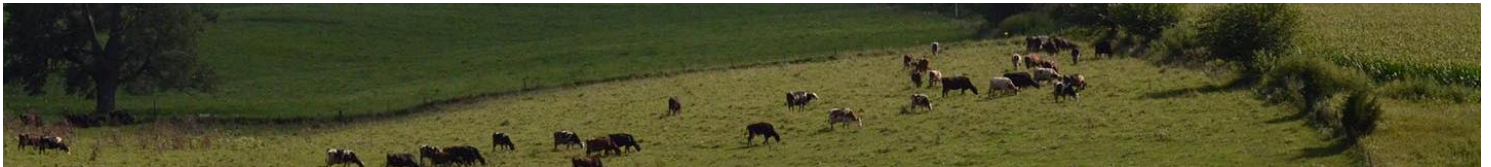

Current H2Ohio contracts will be expiring in the fall of 2025. The Ohio Department of Agriculture has decided to open enrollment for Seneca, Huron, Erie, Wyandot, Richland, Sandusky, Marion, Ottawa, Crawford, and Shelby counties. Producers with acres in these counties will be eligible to sign up for H2Ohio. Enrollment will begin in March 2025. Soil samples will need to be current (no older than 4 years) at the time of enrollment. Be on the lookout for more information to come in the following months!

Questions? Contact Cassie Lefeld, H2Ohio Coordinator, (Cassandra.Lefeld@usda.gov or 937-419-2589)

**NEW ENROLLMENT MARCH 2025,
MORE INFO COMING SOON!**

USDA NATURAL RESOURCES CONSERVATION SERVICES UPDATES

NRCS Ohio Announces Application Deadline for Fiscal Year 2025 for Select Programs

Publish Date: December 10, 2024, USDA-NRCS

USDA's Natural Resources Conservation Service (NRCS) is accepting applications for Fiscal Year 2025 for two financial assistance programs: Environmental Quality Incentives Program (EQIP) and the Conservation Stewardship Program (CSP).

All applications must be received by January 31, 2025, to be considered for funding.

Applications received after the signup date will compete in the next established signup period. While producers may apply at any time during the year, NRCS recommends producers apply as soon as they are interested in conservation financial assistance programs.

Establishing farm records with USDA's Farm Service Agency (FSA) is a necessary step to be eligible for USDA financial assistance programs. By registering your farm with FSA, producers will be eligible to apply for Farm Bill program funding to support their operations – including conservation programs offered through NRCS.

"Many required documents, including the financial assistance application, can be signed virtually, from a smart phone or computer, significantly reducing mailing delays and trips to the local service center," said Ohio State Conservationist John Wilson. "This helps keep producers where they want to be – in the field and on the farm."

Assistance is only a phone call away. NRCS staff are ready to answer your questions, address conservation concerns on your land, and work to ensure your success with eligible USDA Farm Bill programs. Call Justin Wagner, NRCS District Conservationist, 937-419-2590 or visit 822 Fair Road office for more information.

Educational Opportunity:

CONSERVATION TILLAGE & TECHNOLOGY CONFERENCE (CTTC)

CTTC, hosted by our friends at Allen SWCD, will be March 11-12, 2025, (Tuesday-Wednesday) at Ohio Northern University, Ada, Ohio. Connect with other great farmers and CCAs, experience new ideas, and increase your net income.

Our theme is “Getting More from Less.” Cutting costs is key following a year where corn and soybean yields were reduced for many farmers. And crop prices are barely breakeven. We don’t know what the weather will be in 2025, but commodity prices are projected to stay low.

Early registration is now open for the 2025 Conservation Tillage and Technology Conference at ctc.osu.edu until February 25 (increased registration price after this date). Learn more about at <https://agcrops.osu.edu/.../conservation-tillage-and...>

Staff Spotlight

JASON BRUNS

Role: **District Administrator**

Employee Since: **July 2000**

What I do: **Manage the employees and business functions of the district along with assisting landowners with drainage and other technical projects.**

What conservation practice resonates most with you?:

Tough Question, but I guess I would probably say grassed waterways. Over the years I've witnessed firsthand how a such a simple practice can make a remarkable difference on a farm.

About Jason: **Married to my wife Jenny for 25 years. We live on the west end of the county along with our children.**

May you be proud of the work you do, the person you are, and the difference you make.

[See www.shelbyswcd.org](http://www.shelbyswcd.org)
[for full staff directory.](#)

Supervisor Spotlight

MICHAEL WATERCUTTER

Years as a Supervisor: **2**

What made you want to be a Supervisor? **I worked for a Soil and Water District in the past and wanted to help promote conservation in my home county.**

What conservation practice resonates most with you? **Cover Crops. On my family farm we use cover crops on every acre. We have been using covers for 8 years now. A firm believer in the benefits cover crops do for the soil.**

Best place you visited for a conservation related conference or training? **The Big Soil Health Event in Cedar Falls Iowa was one of the better conferences for conservation topics. Learning from other farms at this event has been beneficial for the farm and my career.**

Favorite part of being a Supervisor: **Collaborating with the other supervisors to make sure we do our best to help our SWCD staff succeed and continue to do a great job for the county.**

About Michael: **My wife Katie and I have 3 children who love living close to the family farm. I am the Lead Conservation Agronomist for Mercer Landmark. I enjoy working on the farm with my boys and Dad. My family and I enjoy the outdoors, going on trips and being around family and friends.**
